

FEVER-TREE

MIX with  the BEST

Aperol Blood Orange Spritz

You can never have too much orange in an Aperol Spritz. That's why, instead of regular soda water, this spin on the classic aperitif adds Fever-Tree Italian Blood Orange Soda and a thick orange wedge, to make each sip as juicy as possible. Without Prosecco this recipe makes a delicious lighter alternative.

DIFFICULTY: 3

INGREDIENTS

SERVES 1

Fever-Tree Blood Orange Soda	150 ml
Aperol	50 ml
Ice	Lots
Orange	1 Wedge

METHOD

Step One: Fill a large wine glass, or Copa glass with ice cubes.

Step Two: Add the Aperol.

Step Three: Pour in the Fever-Tree Italian Blood Orange Soda. Garnish with an orange wedge.
