FEVER-TREE

MIX with the BEST

Vodka & Tonic

MEDITERRANEAN TONIC WATER

We wouldn't ever want to get into an argument regarding Vodka and Tonic vs Gin and Tonic, but if we had to defend the former, this iteration of an icon would be the ace up our sleeve. Our recipe is every bit as straightforward as the ingredients that go into our Vodka and Tonic. If you follow these simple steps, you're bound to be left with a cocktail to remember:

DIFFICULTY: 2

GLASSWARE: HIGHBALL

INGREDIENTS

SERVES 1

Fever-Tree Mediterranean Tonic Water	150 ml
Vokda	50 ml
Ice	Lots
Lemon Thyme or Lemon	1 slice

METHOD

Step One: Fill a large wine glass or a highball glass with ice.

Step Two: Add the vodka.

Step Three: Pour the Mediterranean Tonic Water. Garnish with a sprig of lemon thyme or a curl of lemon peel and enjoy.

Top Tip: Traditionally white rum is used in Mojito's, but this also tastes great with dark rum.
